PIP's valuation policy for private equity funds is based on the latest valuations reported by the managers of the funds in which PIP has holdings. In the case of PIP's valuation as at 30 November 2024, 7% of reported valuations are dated 30 November 2024 or later, 77% are dated 30 September 2024 and 16% are dated 30 June 2024. Of the 7% of valuations dated 30 November 2024 or later, 5.2% reflect the mark-to-market fair value adjustment for PIP's listed company holdings.

At 30 November 2024, PIP's private equity assets stood at £2,555m, whilst net available cash balances^ were £21m. The Asset Linked Note^^ ("ALN") outstanding as at 30 November 2024 amounted to £26m. Undrawn commitments to investments stood at £759m as at 30 November 2024, calculated using exchange rates at that date. PIP maintains a £400m^^^ multi-tranche, multi-currency revolving credit facility. As at 30 November 2024, £116m was drawn down under the credit facility and \$150m (£118m GBP equivalent as at month end) of private placement notes were outstanding, resulting in a net debt to NAV ratio of 9.2%.^^^^

Net Portfolio Cash Flow

PIP received distributions of £29.8m relative to £13.8m of calls from existing commitments to private equity funds. Therefore, PIP's portfolio generated net cash of £16.0m during the month.

Six months to 30 November 2024

Performance

The unaudited NAV per share of 501.6p as at 30 November 2024 is an increase of +11.1p (+2.3%) relative to the NAV per share as at 31 May 2024. Valuation gains* added +15.7p (+3.2%), investment income* added +1.9p (+0.4%), foreign exchange movements* were -2.0p (-0.4%), share buybacks added +1.5p (+0.3%) and expenses and taxes**** were -6.0p (-1.2%).

New Commitments

PIP made 10 new investments during the half year ended 30 November 2024, amounting to £88.0m in new commitments. These commitments were to five primary funds (£50.9m), two co-investments (£20.9m) and three manager-led secondaries (£16.2m).

PIP continued to make primary commitments, the timing of which is linked to the fundraising cycles of a targeted list of GPs.

Share Buybacks

During the six months ended 30 November 2024, PIP invested £12.7m***** in share buybacks, acquiring 3,988,292 shares at a weighted average price of 318.3p per share. This price represented an average discount of 34.4% to the prevailing NAV per share at the time of the transactions.

Share buybacks during the half year have resulted in a +0.3% uplift to the May 2024 NAV per share.

Capital Allocation

The adjusted net portfolio cash flow, which is calculated according to PIP's Capital Allocation Policy, was £1.2m during the three months to 30 November 2024. As a result, less than £1.0m should be allocated to share buybacks in the next quarterly cycle. Nevertheless, the PIP Board is committed to delivering for shareholders and has exercised its discretion by opting to allocate £5.0m to share buybacks for the quarter. For the financial year-to-date, £15.0m has been allocated to share buybacks.

* Based on the change in the NAV per share and ordinary share price over the period.

** Figures are stated net of movements associated with the ALN share of the reference portfolio. Valuation movement includes the mark-to-market fair value adjustment of listed company holdings.

***Ratio of net available cash, portfolio value and undrawn credit facility to outstanding commitments. Outstanding commitments relating to funds outside their investment period (>13 years old) were excluded from the calculation as there is a low likelihood of these being drawn. This amounted to £42.0m as at 30 November 2024.

**** Operating expenses, financing costs and withholding taxes on investment distributions.

***** Includes £3.6m of share repurchases that relate to the unused portion of the £200m FY2024 share buyback programme that was carried over to the current financial year.

^Net available cash calculated as cash and net current assets / (liabilities) less undistributed net cashflows associated with the ALN.

^{^^}Unlisted 10-year note issued on 31 October 2017 whose cost and repayments are linked to a reference portfolio consisting of the Company's older vintage funds.

^{^^^^}Net debt calculated as borrowings (excluding the outstanding balance of the Asset Linked Note) less net available cash. The ALN is not considered in the calculation of gross borrowings or the loan-to-value ratio, as defined in PIP's credit facility and note agreements. If the ALN is included, net debt to NAV was 10.3% as at 30 November 2024.
